Irrtum vorbehalten, die Liste wird ständig erweitert

Bemerkung	erforderliche Aktion
*1	Achsschraube vorne muss für den Transport entfernt werden
*2	Fertigungsbedingt kann es bei Triumph Modellen dazu kommen, dass der Innendurchmesser kleiner ist, als für das AXfix Kit benötigt - Bitte nehmen Sie dann Kontakt unter info@rockoil.de zu uns auf!
*3	Es gibt teilw. eine Rückrufaktion. Es werden von Ducati "neue" Hinterachsen verbaut, so dass der Adapter umgearbeitet werden muss! Bei Unsicherheit einfach eine Email an den Hersteller mm@lioncraft.de

Wichtige Bestellinfo! Für *3 aus der Verwendungsliste - DUCATI Panigale V4 und Streetfighter V4 mit Einarmschwinge - Nur Modelljahre 2018 bis 2025

Es gibt teilweise einen Austausch, bzw. es werden von Ducati "neue" Hinterachsen verbaut, so dass der original im Kit 3 vorhandene Adapter nicht mehr passt. Nur Motorräder, die anhand der Fahrzeugidentifikations- und Produktionsnummer identifiziert wurden, sind von der Aktion betroffen. Nicht alle Besitzer dieser Modelle erhalten/erhielten eine Benachrichtigung. Teilweise wurden die Achsen auch schon vor der Erstausslieferung getauscht, so dass die Besitzer nicht wissen können, welche Achse an Ihrem Motorrad verbaut ist. Unsere Problemstellung: Wir können es unmöglich wissen, welche Achse an Ihrem Fahrzeug verbaut ist. Die Lösung – Die ursprünglichen Achsen haben praktisch durchgehend den gleichen Durchmesser. Es passt der AXfix Kit 3 = LC-103-20 inkl. Adapter LC-321. Die neuen bzw. „Austauschachsen“ haben einen Absatz in der Achse. Erkennbar ist diese durch genaues Ansehen oder Fühlen, ob in Fahrtrichtung links in der Achse nach ca. 12cm eine Kante/Absatz zu sehen oder zu fühlen ist. Die neuen Achsen am Hinterrad – siehe Bild Es passt der AXfix Kit 13 = LC-113-20. inkl. Adapter LC-322 (2 teilig) - Wichtiger Hinweis, Motorräder ohne Einarmschwinge (wie z. B. Monster, ältere Multistradas, Diablos etc.) sind von diesem Rückruf nicht betroffen.
